### FINITURA LUX / LUX SURFACE FINISHES / LUX OBERFLÄCHE / FINITION LUX

La finitura LUX è consigliata, oltre che per rivestimenti, anche per pavimenti in ambienti residenziali o commerciale leggero non sottoposti ad elevate sollecitazioni, ove non siano richieste prestazioni antiscivolo. La presenza sporadica di piccole disuniformità o di puntini sulla superficie è da ritenersi come caratteristica del materiale e della particolare lavorazione. Qualora il prodotto sia posto a diretto contatto con l'esterno, si consiglia di utilizzare soluzioni protettive al fine di prevenire la formazione di graffi. / The LUX finishes are recommended, as well as for wall cladding, also for flooring in residential or light commercial areas that are not subjected to heavy traffic, where anti-slip characteristics are not required. The occasional presence of small inconsistencies or little spots on the surface is to be considered a characteristic of the material and of its unique production process. If the product is laid in direct contact with external environments, it is recommended to use protective solutions to reduce the formation of scratches. / Die Oberfläche LUX wird nicht nur für Wandverkleidungen empfohlen, sondern auch für Böden in Wohn-bzw. Gewerbebereichen, die keiner hohen Belastung ausgesetzt sind und bei denen keine rutschhemmende Wirkung erforderlich ist. Das sporadische Vorhandensein von kleinen Unebenheiten oder Punkten auf der Oberfläche ist als ein Merkmal von Material und besonderer Verarbeitung zu betrachten. Wird das Produkt in direkten Kontakt mit der Außenseite gebracht, wird empfohlen, Schutzlösungen zu verwenden, um die Bildung von Kratzern zu vermeiden. / En plus des revêtements, la finition LUX est également recommandée pour les sols dans les environnements résidentiels ou commerciaux légers peu soumis à des contraintes élevées, pour lesquels aucune prestation antidérapante n'est requise. La présence sporadique de petites irrégularités ou de points à la surface doit être considérée comme une caractéristique du matériau et de sa fabrication particulière. Si le produit est placé en contact direct avec l'extérieur, il est conseillé d'utiliser des solutions de protection afin d'éviter la formation de rayures.

In aree caratterizzate dal passaggio di carichi pesanti concentrati non è consigliato l'utilizzo di prodotti a spessore ridotto. In areas that are subjected to heavy concentrated loads it is not recommended to use low thickness products. / In Bereichen, die schwerer Belastung ausgesetzt sind, ist die Verwendung von Produkten mit reduzierter Stärke nicht empfehlenswert. / Dans les zones à passage de charges lourdes concentrées, l'utilisation de produits d'épaisseur réduite n'est pas recommandée.

È possibile posare GRADINO PLUS sia in all'interno che all'esterno. Per la posa in esterno, al fine di evitare infiltrazioni d'acqua, si consiglia di posizionare l'alzata come in figura "A"; oppure di mantenere libera la parete frontale del gradino, come in figura "B".

GRADINO PLUS kann sowohl im Innen- als auch im Außenbereich verlegt werden. Für die Verlegung im Außenbereich empfiehlt sich, um das Durchsickern von Wasser zu vermeiden, die Setzstufe wie in Abbildung „A“ zu verlegen; oder die Vorderseite der Stufe frei zu lassen, wie in Abbildung „B“.

GRADINO PLUS can be installed both indoors and outdoors. For exterior installation, to prevent water infiltration, it is recommended to position the riser as seen in figure "A"; or to keep the front wall of the step free, as in figure "B".

On peut poser GRADINO PLUS aussi bien à l'intérieur qu'à l'extérieur. Pour la pose en extérieur, il est conseillé de placer la contremarche tel qu'indiqué sur la figure A, afin d'éviter les infiltrations d'eau, ou de laisser libre la paroi avant de la marche, comme sur la figure B.

## Pulizia stucchi cementizi miscelati con acqua

Cleaning cement-based grouts mixed with water  
Reinigung des mit Wasser Angemischten Zementmörtels  
Nettoyage des enduits de ciments mélangés à de l'eau

### PULIZIA "DOPOPOSA"

La pulizia "dopoposa" serve per rimuovere i residui di stucchi per le fughe, cemento, calce, boiaccia. È obbligatoria a fine cantiere, sia per le piastrelle smaltate che per quelle non smaltate. Effettuare la pulizia dopo 4-5 giorni dalla stuccatura (lo stucco deve indurire) e non oltre 10 giorni. Oltre questi tempi la pulizia può diventare molto più laboriosa.

#### Superfici antiscivolo

Per loro peculiarità, le superfici antiscivolo, ruvide o strutturate si puliscono più laboriosamente. Si consiglia perciò di prestare particolare attenzione alle modalità di pulizia, in particolare intervenendo rapidamente ed utilizzando monospazzola con dischi bianchi e beige.

### CLEANING AFTER LAYING

Cleaning after laying is done to remove residues of joint fillers, cement, lime or grout. It is essential to do it at the end of the job, both for glazed and for unglazed tiles. Carry out cleaning 4-5 days after grouting (the grout needs to harden) and not later than 10 days after grouting. Any later than this, and cleaning can become very laborious.

#### Anti-slip surfaces

Due to their special features, rough or structured anti-slip surfaces are harder to clean. It is thus recommended to be very careful while cleaning, above all intervening quickly and using a single brush with white or beige disks.

### REINIGUNG NACH DEM VERLEGEN

Die Reinigung nach dem Verlegen dient dazu, die Reste des Fugenmörtels, des Betons, des Kalks und der Zementmasse von den Fliesen zu entfernen. Die Reinigung muss sofort nach Beendigung der Arbeiten erfolgen. Dies gilt sowohl für glasierte als auch für unglasierte Fliesen. Die Fliesen 4-5 Tage, spätestens aber 10 Tage nach dem Verputzen reinigen (der Putz muss erhärten). Nach diesem Zeitraum kann die Reinigung einen sehr viel höheren Arbeitsaufwand erforderlich machen.

#### Rutschfeste oberflächen

Aufgrund ihrer Beschaffenheit sind die rutschfesten, rauhen oder strukturierten Oberflächen etwas schwieriger zu reinigen. Aus diesem Grunde ist die Reinigung sehr wichtig. Für eine schnellere Reinigung wird der Einsatz einer Einscheibenmaschine mit einer weissen oder beige Scheibe empfohlen.

### NETTOYAGE APRÈS LA POSE

Le nettoyage après la pose permet de retirer les résidus de ciment, de plâtre et de coulis. Il est obligatoire en fin de chantier pour les carrelages émaillés ou non. Procéder au nettoyage 4 à 5 jours après le rejointoiement (le matériau doit durcir) et en tout cas avant 10 jours. Après ce délai, le nettoyage risque d'être beaucoup plus difficile.

#### Surfaces antiderapantes

Du fait de leurs caractéristiques spécifiques, les surfaces antidérapantes (rugueuses ou structurées) demandent des opérations de nettoyage plus complexes. Il est donc conseillé de suivre minutieusement les instructions de nettoyage, de veiller à réduire le plus possible les temps d'intervention et d'utiliser une monobrosse avec des disques blancs ou beiges.

(\*) Seguire attentamente le modalità d'uso indicate sulle confezioni dai fabbricanti. Fare sempre test preventivo sulle piastrelle prima dell'uso, in particolare su prodotti Lappati o Levigati.

(\*) Follow the manufacturer's instruction closely. Always do a test in advance on the tiles before use, particularly on Lapped or polished products.

(\*) Aufmerksam die Anweisungen der Hersteller befolgen. Vor der Benutzung sollten Sie immer erst einen prophylaktischen Probeauftrag durchführen, besonders auf geläpften oder polierten Fliesen.

(\*) Suivre attentivement les indications des fabricants. Toujours procéder à un essai sur les carreaux avant l'utilisation, surtout pour les articles rodés ou polis.

## Pulizia stucchi epossidici, bi-componenti e reattivi

Cleaning for epoxy, bi-component and reagent grouts  
Reinigung von Epoxi-, bi-komponent und aktiven Spachtelmassen  
Nettoyage des joints Epoxy, bi-composant et réactif

La rimozione di questi stucchi deve essere fatta immediatamente ed in modo accurato perché questi stucchi induriscono molto rapidamente, anche in pochi minuti.

Seguire attentamente le modalità di pulizia indicate dal fabbricante dello stucco utilizzato e verificarne l'efficacia (anche con prova di controllo) con una prova preliminare di pulizia prima di stuccare l'intero pavimento/parete.

Removal of the residues of these grouts must be carried out immediately and thoroughly, as these grouts harden very rapidly, even in a few minutes.

Please carefully follow the cleaning mode specified by the manufacturer of the grout used; verify its effectiveness (backlight also) with a preliminary cleaning test before grouting the entire floor/wall.

Die Reste dieser Mörtelarten müssen sofort nach dem Verlegen sorgfältig entfernt werden, da sie extrem schnell (in wenigen Minuten) erhärten. Die angegebene Reinigungshinweis vom Hersteller der verwendeten Fugenmasse sorgfältig befolgen. Vor dem Verfugen des gesamten Belag (Boden u/o Wand), die Wirkung der Reinigungsempfehlung (auch im Gegenlicht) mit einem Vor-Test Reinigung überprüfen.

Le nettoyage des résidus doit être effectué immédiatement et avec soin, car ce type de matériau durcit très rapidement (en quelques minutes). Suivez attentivement les indications de nettoyage indiquées par le fabricant de joint utilisé et vérifiez son efficacité (même rétro-éclairage) avec un nettoyage préventif avant de jointoyer la totalité du sol/mur.

Nettoyage quotidien

Utilizzare acqua calda e un panno in microfibra di buona qualità, tipo MAGICCLEAN di Bonasystem Italia. Ogni tanto, ad esempio ogni 10-20 giorni a seconda dello stato della pavimentazione, utilizzare detergenti neutri molto diluiti in acqua calda, che non contengono cere o non depositano patine lucide. A fine lavaggio risciacquare sempre con acqua calda, utilizzando un secondo panno in microfibra di buona qualità. Si consigliano i seguenti prodotti reperibili in commercio.

Use warm water and a good quality microfibre cloth, such as MAGICCLEAN by Bonasystems Italy. Every now and again, e.g. every 10-20 days depending on the state of the flooring, use neutral detergents very diluted with hot water, that are wax-free, and do not deposit glossy films. When the cleaning process is finished always rinse with hot water, using a second good quality microfibre cloth. We recommend the following products which are available on the market.

Warmes Wasser und ein hochwertiges Mikrofaserstuch vom Typ MAGICCLEAN von Bonasystems Italia verwenden. Ab und zu, zum Beispiel alle 10-20 Tage, je nach Zustand des Fußbodenbelags, neutrale in warmen Wasser verdünnte Reinigungsmittel verwenden, die wachsfrei sind und keine glänzenden Schmierfilme hinterlassen. Nach dem Reinigen immer mit warmen Wasser nachspülen und dafür ein zweites hochwertiges Mikrofaserstuch verwenden. Es wird empfohlen, folgende im Handel erhältlichen Produkte zu verwenden.

Utiliser de l'eau chaude et un chiffon en microfibre de bonne qualité, type MAGICCLEAN de Bonasystems Italia. De temps en temps, tous les 10-20 jours par ex., et selon l'état du sol, utiliser des détergents neutres très dilués dans de l'eau chaude qui ne contiennent pas de cires et ne laissent pas de tâches brillantes. En fin de lavage, rincer toujours à l'eau chaude et à l'aide d'un chiffon en microfibre de bonne qualité. Ces produits sont disponibles dans le commerce.

Anti-slip treatments  
Anti-Rutsch-Behandlung  
Traitement antidérapant

La resistenza allo scivolamento dei pavimenti posati (sia piastrelle smaltate che non smaltate) può essere aumentata utilizzando specifici prodotti (vedi tabella).

Prima di applicare il prodotto sul pavimento fare test preventivi su piastrelle non posate per trovare i tempi di contatto più idonei. Se da un lato tempi più lunghi aumentano il grado di grip, dall'altro tendono un po' a sbiancare i colori delle piastrelle e a renderle un pochino più sporcabili. Trattandosi di una applicazione molto tecnica, prima di eseguire qualsiasi prova contattare la ditta Bonasystems Italia.

The resistance of laid floor-tiles (both glazed and unglazed) to slipping can be increased by using specific products: see table. Before applying the product to the floor, do an advance test on unglazed tiles to find the most suitable contact times. On the one hand, longer contact times increase the level of grip, but on the other hand they tend to whiten the colours of the tiles and make them attract dirt a little more. Before doing any test please contact Bonasystems Italia company, since this is a very technical application.

## ZERO.3®

## Materiale ideale per edifici a basso consumo energetico

Ideal for the construction of low-energy buildings  
Ideales Material für Niedrigenergiehäuser  
matériau idéal pour édifices à faible consommation énergétique

ZERO.3 è ideale per la costruzione di edifici a bassissimo consumo energetico; queste sono le applicazioni nelle quali ZERO.3 è il materiale ottimale:

- **FINITURA DI PAVIMENTI E RIVESTIMENTI**  
ZERO.3 è un prodotto realizzato con materie prime naturali che non contengono sostanze sintetiche, che offre prestazioni di sicurezza (resistenza al fuoco), pulibilità e durabilità decisamente superiori rispetto al legno e alla moquette.
- **IMPIANTI DI RISCALDAMENTO A PAVIMENTO**  
ZERO.3 offre prestazioni di eccellenza poiché favorisce l'ottimizzazione del sistema completo con temperature più basse dell'acqua e di conseguenza il risparmio energetico dell'intero impianto (grazie al suo basso spessore e alla conducibilità termica superiore rispetto al legno che è materiale isolante).
- **FINITURE SUPERFICIALI DI RIVESTIMENTI A CAPPOTTO E FACCIATE VENTILATE**  
L'utilizzo di ZERO.3 è indicato per la sua leggerezza, il grande formato e la facilità di installazione. Inoltre, rispetto a materiali lapidei o metallici e rispetto alle finiture ad intonaco, ZERO.3 offre sicuramente una maggiore resistenza agli agenti atmosferici, allo smog, agli agenti chimici, alle macchie e ai graffiti, e caratteristiche di eccellenza per quanto riguarda la durabilità nel tempo (resistenza all'invecchiamento, all'azione della luce e del gelo).
- **FINITURA DI PANNELLI DI TAMPONAMENTO ESTERNO PER STRUTTURE E CASE PREFABBRICATE**  
ZERO.3 è la soluzione ottimale grazie alle sue caratteristiche tecniche, alla sua leggerezza e al grande formato.

ZERO.3 is ideal for the construction of low energy consumption buildings and these are the applications in which ZERO.3 is the optimal material:

- **FLOOR AND WALL COVERINGS**  
ZERO.3 is manufactured with raw materials that do not contain any synthetic substances and therefore offers the security of fire resistance, durability and easy cleaning superior to that of wood and carpet.
- **FLOOR HEATING SYSTEMS**  
ZERO.3 assists with the optimization of the complete system by requiring lower water temperatures and consequently saving energy. This is due to its thickness and thermal conductivity which render it superior to moquette and wood.
- **SUPERFICIAL SURFACES OF THERMAL INSULATION SYSTEM AND VENTILATED FACADES**  
ZERO.3 is recommended for its lightness, large size and easy installation. Moreover, when compared to stone, metallic or plaster materials ZERO.3 offers a noticeably higher resistance to atmospheric agents, pollution, chemical agents, stains and graffiti, along with excellent durability (resistance to aging and the effects of light and frost).
- **FINISH OF EXTERNAL WALLS PLUGS FOR STRUCTURES AND PREFABRICATE BUILDINGS**  
ZERO.3 is the perfect solution thanks to its technical characteristics, lightness and large sizes.

ZERO.3 ist ideal für den Bau von Gebäuden mit sehr niedrigem Energieverbrauch; dies sind die Anwendungen, in denen ZERO.3 das optimale Material ist:

- **ENDBEARBEITUNG VON BÖDEN UND WÄNDEN**  
ZERO.3 ist ein Produkt aus natürlichen Rohstoffen, die keine synthetischen Substanzen enthalten, das eine Sicherheitsleistung (Brandschutz), Reinigungsfähigkeit und Haltbarkeit bietet, die Holz und Teppichen weit überlegen ist.
- **FUSSBODENHEIZUNGSSYSTEME**  
ZERO.3 bietet eine ausgezeichnete Leistungen, da es die Optimierung des Gesamtsystems mit niedrigeren Wassertemperaturen und damit die Energieeinsparung des Gesamtsystems begünstigt (dank seiner geringen Stärke und höheren Wärmeleitfähigkeit im Vergleich zu Holz, das ein Dämmstoff ist).
- **OBERFLÄCHENVEREDELUNG VON AUSSENVERKLEIDUNGEN UND HINTERLÜFTETEN FASSADEN**  
Die Verwendung von ZERO.3 ist wegen seiner Leichtigkeit, Größe und einfachen Installation angezeigt. Darüber hinaus bietet ZERO.3 im Vergleich zu Stein- oder Metallmaterialien und Putzoberflächen eine höhere Beständigkeit gegen Witterungseinflüsse, Smog, Chemikalien, Flecken und Graffiti, und hat hervorragende Eigenschaften in Bezug auf die Langlebigkeit (Alterungsbeständigkeit, Licht- und Frosteinwirkung).
- **VEREDELUNG VON AUSSENVERKLEIDUNGSPLETTEN FÜR BAUWERKE UND FERTIGHÄUSER**  
ZERO.3 ist aufgrund seiner technischen Eigenschaften, seiner Leichtigkeit und seines großen Formats die optimale Lösung.

ZERO.3 est idéal pour la construction d'édifices à très faible consommation énergétique ; celles-ci sont les applications dans lesquelles ZERO.3 est le matériau optimal :

- **FINITION DE SOLS ET REVÊTEMENTS**  
ZERO.3 est un produit réalisé avec des matières premières naturelles qui ne contiennent pas de substances synthétiques, qui offre des prestations de sécurité (résistance au feu), nettoyabilité et durabilité nettement supérieures par rapport au bois et à la moquette.
- **INSTALLATIONS DE CHAUFFAGE AU SOL**  
ZERO.3 offre des prestations d'excellence car il favorise l'optimisation du système complet avec des températures plus basses que l'eau et, par conséquent, l'économie d'énergie de toute l'installation (grâce à sa faible épaisseur et à la conductivité thermique supérieure par rapport au bois qui est un matériau isolant).
- **FINITIONS DE SURFACE DE REVÊTEMENTS AVEC MURS MANTEAU ET FAÇADES VENTILÉES**  
L'utilisation de ZERO.3 est indiqué pour sa légèreté, le grand format et la facilité d'installation. De plus, par rapport aux matériaux en pierre ou métalliques et par rapport aux finitions à enduit, ZERO.3 offre sûrement une plus grande résistance aux agents atmosphériques, à la pollution, aux agents chimiques, aux taches et aux graffiti, et des caractéristiques d'excellence en ce qui concerne la durabilité dans le temps (résistance au vieillissement, à l'action de la lumière et du gel).
- **FINITION DE PANNEAUX DE TAMPONNEMENT EXTÉRIEUR POUR STRUCTURES ET MAISONS PRÉFABRIQUÉES**  
ZERO.3 est la solution optimale grâce à ses caractéristiques techniques, sa légèreté et son grand format.

EMAS Approved Environmental Management System of production sites  
Umweltzertifizierung EMAS der Produktionsstätten  
Système de Management environnemental Certificat EMAS des sites de production

Il sistema comunitario di ecogestione ed audit EMAS è lo strumento con cui l'Unione Europea promuove il miglioramento continuo delle prestazioni ambientali delle organizzazioni - rif. Regolamenti (CE) 1221/2009 e (UE) 2017/1505 del Parlamento Europeo e del Consiglio. Panariagroup Industrie Ceramiche S.p.A. ha ottenuto la registrazione EMAS per tutti i suoi siti produttivi di Toano (RE) (N. registrazione I-000239), Finale Emilia (MO) (N. registrazione I-000309), Fiorano Modenese (MO) (N. registrazione I-000401) e Ilhavo/Aveiro (Portogallo) (N. registrazione PT-000097).

Questa registrazione riveste una grande importanza, perché impone la creazione di un vero Sistema di gestione Ambientale basato sul continuo miglioramento delle proprie prestazioni ambientali. Il sistema si basa sulla creazione di un rapporto di collaborazione e fiducia con le istituzioni del territorio (Enti, Autorità, Associazioni, Rappresentanze Sindacali, Scuole, Stampa) e con il pubblico, ed è prevista la partecipazione attiva di tutti i dipendenti.

La Dichiarazione Ambientale è il documento finale che descrive gli aspetti ambientali e di sicurezza sul lavoro, le prestazioni ambientali del sito e gli obiettivi ambientali che l'Azienda si impone di raggiungere nell'ottica del miglioramento continuo.

La dichiarazione è convalidata da un Verificatore Ambientale Accreditato a seguito verifiche ispettive (audit) eseguite in stabilimento. Panaria è tra le pochissime aziende ceramiche ad avere la registrazione EMAS, che, insieme alla Ecolabel ed alla certificazione qualità ISO 14001, testimonia la massima attenzione e sensibilità del management alle questioni etiche, ambientali, di sicurezza e qualità.

The Community Eco-Management and Audit Scheme (EMAS) is the tool through which the European Union promotes continuous improvement of the environmental performance of organizations - ref. Regulations (CE) 1221/2009 and (UE) 2017/1505 of the European Parliament and Council. Panariagroup Industrie Ceramiche S.p.A. has obtained EMAS Registration for all its production sites: Finale Emilia (MO) (registration N° I-000309), Toano (RE) (registration N° I-000239), Fiorano Modenese (MO) (registration N° I-000401) and Ilhavo/Aveiro (Portugal) (registration N° PT-000097).

This registration is of major importance, since it requires a proper Environmental Management System to be created, based on the continual improvement of environmental performance within organisations.

The scheme is based on the creation of an open dialogue with local institutions (Agencies, Authorities, Associations, Trade Union Representatives, Schools, Press) and with the public, and it is expected that all employees will play an active part.

The Environmental Statement is the end document that describes the environmental and safety aspects in the workplace, the environmental performance of the site and the environmental targets that the Company sets itself within the framework of continual improvement.

The statement is validated by an Accredited Environmental Verifier, following audits carried out in the plant. Panaria is one of the very few ceramics companies to have EMAS registration which, together with the Ecolabel and ISO 14001 quality certification, bear witness to the management's utmost commitment and readiness to engage with the ethical, environmental, safety and quality issues.

Das Gemeinschaftssystem für Umweltmanagement und Umweltbetriebsprüfung EMAS ist das Instrument, mit dem die Europäische Union die kontinuierliche Verbesserung der Umwelleistung von Organisationen fördert - vgl. Verordnungen (EG) Nr. 1221/2009 und (EU) 2017/1505 des Europäischen Parlaments und des Rats. Panariagroup Industrie Ceramiche S.p.A. ha die EMAS Registrierung für alle Produktionsstätten erhalten: Toano (RE) (Registrierungsnummer I-000239), Finale Emilia (MO) (Registrierungsnummer I-000309), Fiorano Modenese (MO) (Registrierungsnummer I-000401) und Ilhavo/Aveiro (Portugal) (Registrierungsnummer PT-000097). Diese Registrierung hat eine große Bedeutung, da sie die Schaffung eines wahren Umweltmanagement-Systems auf der Grundlage der kontinuierlichen Verbesserung der Effizienz des Umweltcontrollings impliziert. Das System basiert auf dem Aufbau einer kooperativen und von gegenseitigem Vertrauen geprägten Beziehung mit den territorialen Institutionen (öffentlichen Einrichtungen, Behörden, Verbänden, gewerkschaftlichen Vertretungen, Schulen, Presse) und der Öffentlichkeit. Des Weiteren ist die aktive Einbeziehung des gesamten Personals vorgesehen. Die Umweltschutzklärung ist das endgültige Dokument, in dem die Aspekte zum Umweltschutz und zur Sicherheit am Arbeitsplatz, die Initiativen zum Schutz der Umwelt an diesem Standort sowie die Ziele beschrieben werden, die das Unternehmen im Rahmen des kontinuierlichen Verbesserungsprozesses erreichen will.

Die Erklärung wird von einem zugelassenen Umweltgutachter nach vor Ort durchgeführten Inspektionen (Audits) genehmigt. Panaria ist einer der wenigen Keramikerhersteller, der eine EMAS-Registrierung vorweisen kann, die, gemeinsam mit Ecolabel und dem Qualitätzertifikat ISO 14001, das große Engagement und die Sensibilität des Unternehmens in Bezug auf Ethik, Umweltschutz, Sicherheit und Qualität unter Beweis stellt.

Le Système communautaire de Management environnemental et d'Audit est un instrument employé par l'Union européenne pour promouvoir l'amélioration constante des performances environnementales des organisations. - Référence : Règlements (CE) n° 1221/2009 et (UE) 2017/1505 du Parlement européen et du Conseil. Panariagroup Industrie Ceramiche S.p.A. a obtenu l'accréditation EMAS pour les trois sites de production: Finale Emilia (MO) (accréditation N° I-000309), Toano (RE) (accréditation N° I-000239), Fiorano Modenese (MO) (accréditation N° I-000401) et Ilhavo/Aveiro (Portugal) (accréditation N° PT-000097).

Cette certification revêt une grande importance, car elle sous-entend la création d'un véritable Système de gestion de l'environnement, basé sur la perpétuelle amélioration des résultats obtenus en matière d'environnement. Le système repose sur la création d'un rapport de collaboration et de confiance avec les institutions du territoire (Institutions, Pouvoirs publics, Associations, Représentations syndicales, Écoles, Presses) et avec le public. Il est prévu que tous les employés participeront activement à ce programme. La Déclaration environnementale constitue le document final décrivant les éléments en matière d'environnement et de sécurité sur le lieu de travail, les efforts effectués par le site pour l'environnement et les objectifs que l'entreprise s'est fixés dans le cadre de cette amélioration perpétuelle.

La déclaration a été validée par un Contrôleur officiel suite aux inspections (audit) effectuées sur le site. Panaria fait partie des rares entreprises actives dans le domaine de la céramique de qualité ISO 14001, témoigne de la plus grande attention et de la sensibilité de la part de la direction en ce qui concerne les questions éthiques, environnementales, de sécurité et de qualité.

## Marchio europeo CE di sicurezza

CE Security Mark  
Europäisches CE Sicherheitszeichen  
Certificat européen de sécurité CE

La marcatura CE è la certificazione di sicurezza del prodotto richiesta dall'Unione Europea, ed ha lo scopo di salvaguardare la salute delle persone e i beni nelle opere di costruzione. Il nuovo Regolamento UE N. 305/2011 è in vigore il 1 luglio 2013. La novità più rilevante è l'introduzione della Dichiarazione di Prestazione (DOP, Declaration Of Performance) con la quale il fabbricante comunica i requisiti di sicurezza dei propri materiali. Le lastre in gres porcellanato Zero.3 3Plus - Zero.3 5Plus - Zero.3 6mm sono in possesso del marchio CE (cfr. DOP004PAN - cfr. DOP005PAN - cfr. DOP006PAN). L'applicazione sul retro di una rete in fibra di vetro conferisce a questi prodotti le classi di reazione al fuoco indicate su questo catalogo nelle tabelle tecniche Zero.3. **Le DOP di Panaria sono disponibili sul sito internet [www.panaria.it](http://www.panaria.it)**

Das CE- Kennzeichnung ist die von EU angefragte Zertifizierung für die Produkt- Sicherheit, und hat das Zweck die Gesundheit der Menschen zu schützen und die Güter in der Bauphase zu bewahren. Die neue Regelung UE N. 305/2011 tritt am 1.07.2013 in Kraft. Die wichtigste Neuheit ist die Einfügung der Leistungserklärung (DOP, Declaration Of Performance), mit der der Hersteller die Sicherheitsanforderungen eigenen Materialien mitteilt. Die Feinsteinzeugfliesen Zero.3 3Plus - Zero.3 5Plus - Zero.3 6mm sind mit dem CE-Markenzeichen versehen (siehe DOP004PAN - siehe DOP005PAN - cfr. DOP006PAN). Die Anwendung eines Glasfasernetzes auf der Rückseite der Fliesen verleiht diesen Produkten die in den technischen Tabellen Zero.3 aufgeführten Brandklassen. **Die DOP Panaria sind auf Internet Site [www.panaria.it](http://www.panaria.it) verfügbar**

The CE mark is the safety product certification required by EU and it is finalized to preserve the people's health and the goods in buildings. The new Regulation UE N. 305/2011 is valid from the first of July 2013. The most important news is the introduction of the Declaration Of Performance (DOP) with which the supplier communicates the safety requirements concerning own materials. Zero.3 3Plus - Zero.3 5Plus - Zero.3 6mm porcelain stoneware slabs have the CE mark (cf. DOP004PAN - cf. DOP005PAN - cfr. DOP006PAN). The application of a fibreglass mesh on the back confer to these products the categories of fire resistance indicated in the Zero.3 technical tables. **Panaria DOP are available on the website [www.panaria.it](http://www.panaria.it)**

L'Union Européenne définit avec la marque CE est la certification de sécurité des produits demandé par l'Union Européenne ayant comme objectif la protection et la santé des personnes et des biens dans les ouvrages du bâtiments. Le nouveau Règlement UE Nr. 305/2011 est entré en vigueur le 1<sup>er</sup> Juillet 2013. La nouveauté la plus importante est l'introduction de la Déclaration de Prestation (DOP, Declaration Of Performance) par la quelle le fabricant communique les caractéristiques de sécurité de ses produits. Les dalles en grès cérame Zero.3 3Plus - Zero.3 5Plus - Zero.3 6mm possèdent le marquage CE (cfr. DOP004PAN - cfr. DOP005PAN - cfr. DOP006PAN). L'application d'une couche en fibre de verre au dos de chaque dalle confère aux produits une haute résistance au feu. La classe de résistance des dalles est disponible dans les tableaux techniques Zero.3. **Les DOP de Panaria sont disponibles sur le site internet [www.panaria.it](http://www.panaria.it)**

# Condizioni generali di vendita

## GENERAL TERMS AND CONDITIONS OF SALE

### 1) Ambito di applicazione

1.1 Le presenti condizioni generali di vendita ("CGV") si applicheranno a tutte le forniture di piastrelle in ceramica o altri prodotti in ceramica ("Prodotti") che saranno eseguite nei confronti di qualsiasi cliente ("CLIENTE") da una società o divisione del Gruppo Panariagroup Industrie Ceramiche S.p.A. ("VENDITORE") anche se le CGV non verranno di volta in volta espressamente richiamate, menzionate ovvero espressamente accettate dal CLIENTE.

1.2 Accordi in deroga alle presenti CGV saranno efficaci nei confronti di VENDITORE soltanto (i) se contenuti nel "Contratto di Vendita", come definito al successivo paragrafo 3.2, (ii) se contenuti in documenti successivi alla conclusione del Contratto di Vendita ed il cui contenuto sia stato accettato per iscritto da VENDITORE. In ogni caso, anche se presenti deroghe concordate per iscritto, le CGV continueranno ad applicarsi per le parti non espressamente derogate.

1.3 In nessun caso VENDITORE sarà vincolato da eventuali condizioni generali di contratto di CLIENTE, neanche qualora esse siano richiamate o riportate negli ordini o in qualsiasi altra documentazione trasmessa a VENDITORE da CLIENTE. Nessun comportamento di VENDITORE potrà essere interpretato o utilizzato al fine di esprimere tacita accettazione di VENDITORE delle condizioni generali di contratto di CLIENTE.

1.4 In nessun caso, VENDITORE sarà vincolato da atti e/o azioni dei propri agenti, essendo questi ultimi privi del potere di vincolare il VENDITORE.

1.5 Nel caso in cui CLIENTE sia un consumatore, le disposizioni delle presenti CGV non pregiudicheranno i diritti allo stesso spettanti in base alle previsioni di legge relative alle vendite eseguite nei confronti dei consumatori.

### 2) Prodotti – Modifiche

2.1 Le rappresentazioni e/o immagini riguardanti i Prodotti riportate in siti internet, brochure, cataloghi, listini prezzi o documenti simili di VENDITORE hanno valore indicativo ed illustrativo. Conseguentemente, esse non rappresentano il risultato estetico finale dei Prodotti. Le caratteristiche tecniche e fisiche nonché le qualità dei Prodotti sono riportate unicamente nei manuali tecnici di VENDITORE. Ogni altro documento riportante le caratteristiche tecniche e fisiche nonché le qualità dei Prodotti ha valore puramente indicativo e non sarà vincolante per VENDITORE.

2.2 VENDITORE dichiara che i Prodotti sono conformi alle norme italiane e comunitarie di settore ad essi applicabili. A pena di inefficacia della garanzia di cui all'articolo 7 e di qualsiasi altra garanzia convenzionale e/o legale, ciascun Prodotto dovrà essere utilizzato ed applicato in conformità alle indicazioni di utilizzo di VENDITORE riferite ai Prodotti in questione e riportate nei cataloghi e/o nei manuali tecnici di VENDITORE ovvero diversamente comunicate o rese accessibili da VENDITORE a CLIENTE e, comunque, in conformità alla diligenza richiesta dalla natura dei Prodotti stessi.

2.3 È responsabilità di CLIENTE, prima della conclusione del Contratto di Vendita, accertare che i Prodotti siano idonei allo scopo e/o all'uso specifico per il quale intende acquistarli e, inoltre, accertare che i Prodotti medesimi siano conformi alla normativa applicabile nel luogo in cui CLIENTE intende importarli, distribuirli, venderli o farne qualsiasi uso.

2.4 VENDITORE, anche dopo la conclusione del Contratto di Vendita, potrà apportare ai Prodotti qualsiasi modifica che esso ritenga necessaria o opportuna, purché non ne alteri le caratteristiche essenziali. Qualora VENDITORE esegua modifiche sostanziali ai Prodotti (ad es. modifiche che interessano: le modalità di installazione, le caratteristiche di intercambiabilità dei Prodotti ecc.) oggetto di un Contratto di Vendita (come definito al successivo paragrafo 3.2), VENDITORE comunicherà per iscritto tale modifica a CLIENTE.

2.5 CLIENTE sarà tenuto a rappresentare agli acquirenti dei Prodotti e ai terzi le caratteristiche dei Prodotti nonché le indicazioni d'uso e di applicazione degli stessi, in conformità a quanto rappresentatogli da VENDITORE. Fermo restando quanto sopra, CLIENTE sarà esclusivamente responsabile per le dichiarazioni effettuate nei confronti dei terzi in relazione ai Prodotti, alle loro caratteristiche e al loro uso e/o applicazione e dovrà tenere VENDITORE indenne e manlevato da qualsiasi danno eventualmente subito da VENDITORE in relazione a o in connessione con tali dichiarazioni di CLIENTE, nel caso in cui le stesse siano false, incomplete e/o inesatte.

### 3) Preventivi – Conclusione del Contratto di Vendita - Tolleranze

3.1 I preventivi, verbali o scritti, di VENDITORE non costituiscono proposte contrattuali.

3.2 Il contratto di vendita ("Contratto di Vendita") si perfezionerà attraverso:

a) la trasmissione della offerta da parte di VENDITORE e l'accettazione scritta di tale offerta da parte di CLIENTE senza alcuna modifica all'offerta stessa; oppure

b) la trasmissione dell'ordine da parte di CLIENTE e l'accettazione scritta di tale ordine da parte di VENDITORE.

3.3 Ai fini del precedente paragrafo 3.2, lettera a) i seguenti fatti o atti avranno valore di accettazione scritta della offerta di VENDITORE da parte di CLIENTE:

a) ricezione e accettazione, da parte di VENDITORE, di una lettera di credito procurata da CLIENTE;

b) ricezione e accettazione, da parte di VENDITORE, di tutto o di parte del prezzo della fornitura;

c) ricezione, da parte di VENDITORE, di un ordine di acquisto emesso da CLIENTE. In tal caso, qualsiasi previsione dell'ordine di acquisto di CLIENTE che risulti difforme dalle previsioni della offerta di VENDITORE sarà vincolante nei confronti di VENDITORE solo se specificamente accettata per iscritto da quest'ultimo.

3.4 Inoltre, ai fini del precedente paragrafo 3.2, lettera b), nel caso in cui la accettazione di VENDITORE dell'ordine di CLIENTE contenga condizioni differenti rispetto all'ordine formulato da CLIENTE, il Contratto di Vendita si considererà concluso alle condizioni riportate nella conferma d'ordine di VENDITORE, salvo il caso in cui CLIENTE comunichi per iscritto di rifiutare le modifiche riportate nella accettazione dell'ordine di VENDITORE entro 1 (uno) giorno lavorativo dalla ricezione della stessa.

3.5 Le forniture comprenderanno esclusivamente quanto indicato nel Contratto di Vendita.

3.6 CLIENTE riconosce a VENDITORE i margini di tolleranza quantitativa e/o qualitativa rinvenibili dal Contratto di Vendita o dagli usi o dalla prassi del settore dei Prodotti.

### 4) Imballaggio – Termini di resa – Termini di consegna

4.1 I Prodotti saranno imballati ed approntati per la spedizione secondo i sistemi

di protezione generalmente adottati da VENDITORE per i Prodotti in questione in considerazione delle modalità di trasporto convenute. Qualora CLIENTE ritenga necessario l'impiego di imballaggi speciali o di protezioni aggiuntive dovrà farne espressa richiesta a VENDITORE, fermo restando che, in tal caso, saranno a carico di CLIENTE tutti i relativi costi.

4.2 Salvo diversamente previsto nel Contratto di Vendita, i Prodotti saranno consegnati a CLIENTE in conformità alla regola Incoterms® ICC, ultima versione, Ex-Works (EXW) – stabilimento di VENDITORE indicato nel Contratto di Vendita.

CLIENTE autorizza VENDITORE a sottoscrivere, in nome e per conto di CLIENTE, tutti i documenti che debbano essere sottoscritti al momento della presa in carico dei Prodotti presso gli stabilimenti di VENDITORE, come, ad esempio, il CMR.

Nel caso in cui la regola Incoterms® ICC concordata tra le parti preveda che CLIENTE debba curare il trasporto dei Prodotti fuori dall'Italia:

a) in caso di cessione intra-comunitaria, entro 45 (quarantacinque) giorni dalla ricezione dei Prodotti presso gli stabilimenti di CLIENTE, CLIENTE dovrà trasmettere a VENDITORE un originale o una copia del documento di trasporto internazionale CMR o di altro documento di trasporto, sottoscritti a destinazione da CLIENTE ovvero, in assenza del CMR, una dichiarazione di ricezione dei Prodotti, emessa sulla base del form quale Allegato -1- disponibile per il download all'indirizzo [www.panariagroup.it](http://www.panariagroup.it);

b) in caso di cessione extra-comunitaria, CLIENTE si impegna a:

i) presentare la dichiarazione doganale di esportazione (DAU-EX e DAE) ed effettuare l'appuntamento del MRN (Movement Reference Number) presso la dogana del territorio comunitario di uscita dei Prodotti, entro 90 (novanta) giorni dalla data di consegna in Italia dei Prodotti stessi;

ii) inviare a VENDITORE, entro 90 (novanta) giorni dalla data di consegna, i documenti comprovanti l'esportazione dei Prodotti (dichiarazione di esportazione DAU-EX + DAE + notifica di avvenuta esportazione);

iii) confermare prontamente per iscritto a VENDITORE l'avvenuta esecuzione delle suddette formalità e a fornirgli ogni ulteriore documento comprovante l'esecuzione delle suddette formalità e l'uscita dei Prodotti dal territorio dell'Unione Europea.

In caso di inadempienza di CLIENTE a quanto pattuito al presente paragrafo 4.2, VENDITORE avrà il diritto di addebitare immediatamente a CLIENTE l'Imposta sul Valore Aggiunto relativa alla fornitura e connessa alla mancata prova del trasporto dei Prodotti in altro Stato Membro della Comunità Europea o mancato appuramento della esportazione. In ogni caso, CLIENTE terrà indenne e manlevato VENDITORE in relazione al pagamento di tutto quanto eventualmente dovuto da VENDITORE nei confronti dell'Amministrazione Finanziaria, a titolo di sanzioni ed interessi o ad altro titolo, in connessione con la fornitura e la mancata prova del trasporto dei Prodotti in altro Stato Membro della Comunità Europea o al mancato appuramento della esportazione.

A tal proposito, VENDITORE potrà: (i) compensare qualsiasi importo dovuto da CLIENTE in base al presente paragrafo 4.2 con eventuali crediti maturati da CLIENTE, a qualsiasi titolo, nei confronti di VENDITORE; ovvero (ii) trattenere definitivamente eventuali somme già ricevute da CLIENTE in relazione a Contratti di Vendita ancora da eseguirsi, effettuando una compensazione fra il debito di CLIENTE in base al presente paragrafo 4.2 e tutti i pagamenti già eseguiti da CLIENTE.

4.3 VENDITORE eseguirà la consegna dei Prodotti entro il termine previsto nel Contratto di Vendita, anche mediante consegne parziali. Il termine di consegna si intenderà in ogni caso non essenziale né perentorio. Salvo il caso di dolo o colpa grave, VENDITORE non sarà tenuto a corrispondere a CLIENTE alcun indennizzo o risarcimento per eventuali danni diretti o indiretti dovuti al ritardo nella consegna. In nessun caso di ritardo nella consegna dei Prodotti CLIENTE avrà il diritto di risolvere il Contratto di Vendita.

4.4 Al momento della ricezione dei Prodotti, CLIENTE avrà l'onere di denunciare danneggiamenti agli imballi e/o eventuali avarie o ammanchi di Prodotti verificatisi durante il trasporto, mediante apposizione di riserva scritta nel documento di trasporto, nonché l'onere di:

a) far confermare dal vettore, mediate apposita sottoscrizione, l'apposizione della riserva; e

b) informare immediatamente per iscritto VENDITORE e inviargli copia del suddetto documento entro e non oltre 8 (otto) giorni dalla data di ricezione dei Prodotti.

In caso contrario, VENDITORE non sarà responsabile per eventuali danneggiamenti, perdite o furti occorsi ai Prodotti durante il trasporto, anche qualora lo stesso sia eseguito con rischio in tutto o in parte a carico di VENDITORE.

### 5) Prezzi – Pagamento – Ritardato pagamento

5.1 I Prodotti verranno forniti ai prezzi concordati tra le parti nel Contratto di Vendita o, qualora il Contratto di Vendita non dovesse menzionare alcun prezzo, ai prezzi riportati nel listino prezzi di VENDITORE in vigore al momento della conclusione del Contratto di Vendita. Salvo diversa indicazione scritta, i prezzi dei Prodotti riportati nei listini, nei preventivi e/o nelle offerte di VENDITORE si intendono in Euro, al netto di IVA e per consegne eseguite in conformità alla regola Incoterms® Ex-Works (EXW), stabilimento di VENDITORE indicato nel Contratto di Vendita, ICC, ultima versione. Pertanto, nel caso in cui venga convenuto un diverso termine di resa, l'importo della fattura verrà modificato di conseguenza, includendo in fattura le spese di trasporto e ogni altro onere connesso con il termine di resa concordato tra le parti per la consegna dei Prodotti.

5.2 Il pagamento dei Prodotti dovrà essere eseguito da CLIENTE con le modalità e nei tempi indicati nel Contratto di Vendita o diversamente concordati per iscritto tra le parti. I pagamenti si considereranno effettuati da CLIENTE solo nel momento in cui il relativo importo sarà stato accreditato sul conto corrente di VENDITORE. Il pagamento dovrà essere effettuato da CLIENTE in Euro ovvero nella valuta del luogo in cui CLIENTE ha la propria sede, a scelta di VENDITORE, in conformità alla valuta che VENDITORE indicherà nella relativa fattura di vendita.

5.3 Nel caso in cui CLIENTE sia in ritardo nell'esecuzione del pagamento, VENDITORE avrà diritto:

a) al pagamento degli interessi legali di mora, in conformità alla legge applicabile;

b) di sospendere le consegne ancora da eseguirsi, previa comunicazione scritta a CLIENTE, fino a quando gli importi dovuti e i relativi interessi di mora siano stati integralmente pagati.

5.4 Qualora tali importi e interessi risultino ancora non pagati una volta decorsi 30

(trenta) giorni dalla scadenza data di pagamento concordata, VENDITORE potrà altresì, a propria discrezione, alternativamente o cumulativamente, e in aggiunta a qualsiasi altro diritto o rimedio allo stesso spettante in base alla legge o alle presenti CGV:

a) esigere l'immediato pagamento di ogni debito residuo, anche se sia stato convenuto un pagamento a rate o un pagamento dilazionato e/o siano stati emessi e siano in scadenza cambiali tratte, pagherò cambiari, assegni o altri strumenti di pagamento;

b) risolvere il Contratto di Vendita in questione e trattenere definitivamente eventuali somme già ricevute in relazione a tale Contratto di Vendita e/o ad altri Contratti di Vendita, effettuando una compensazione fra il debito di CLIENTE e tutti i pagamenti ricevuti;

c) eseguire le future consegne dei Prodotti soltanto previo pagamento anticipato in relazione alle forniture ancora da eseguirsi;

d) revocare sconti e bonus che siano stati concordati fra le parti anche in relazione a Contratti di Vendita regolarmente eseguiti.

5.5 I diritti di cui ai precedenti paragrafi 5.3 e 5.4 potranno essere esercitati in qualsiasi momento da VENDITORE anche nel caso in cui:

a) CLIENTE sia sottoposto a liquidazione, a procedure concorsuali, fallimentari, di ristrutturazione del debito o ad azioni esecutive; oppure

b) la compagnia assicurativa di VENDITORE rifiuti la copertura assicurativa di crediti di VENDITORE nei confronti di CLIENTE; oppure

c) CLIENTE versi in uno stato di difficoltà finanziaria - idoneo a determinare un pregiudizio al puntuale adempimento dei propri obblighi di pagamento - risultante, a titolo esemplificativo e non esaustivo, dalla diminuzione di garanzie concesse e/o dalla mancata prestazione di garanzie promesse, nonché dal verificarsi di qualsiasi insoluto, anche qualora tali circostanze si siano verificate nell'ambito dei rapporti tra CLIENTE ed altri suoi fornitori.

5.6 CLIENTE non potrà far valere eventuali inadempimenti di VENDITORE né potrà avviare alcuna azione legale nei confronti dello stesso fino a quando non abbia pagato integralmente a VENDITORE ogni importo allo stesso spettante ai sensi dei paragrafi 5.3 e 5.4.

### 6) Riserva di Proprietà

6.1 VENDITORE manterrà la proprietà dei Prodotti venduti fino al completo pagamento del loro prezzo da parte di CLIENTE.

Fermo restando quanto sopra, il rischio di perimento dei Prodotti sarà disciplinato dal termine di resa Incoterms® concordato tra le parti per la consegna dei Prodotti.

6.2 In caso di inadempimento o ritardo nell'adempimento dell'obbligazione di pagare il prezzo dei Prodotti, fermo restando quanto previsto ai precedenti paragrafi 5.4, 5.5 e 5.6, VENDITORE avrà il diritto di accedere ai locali in cui si trovano i Prodotti, di rientrarne in possesso e di incamerare definitivamente, a titolo di penale, eventuali somme pagate da CLIENTE per i Prodotti in questione.

### 7) Garanzia

7.1 Fatto salvo quanto previsto ai precedenti paragrafi 2.1, 2.2, 2.4 e 3.6 in relazione alle modifiche ammesse ai Prodotti e alle tolleranze, VENDITORE garantisce a CLIENTE che i Prodotti saranno conformi al Contratto di Vendita, alla classificazione indicata nei manuali tecnici, cataloghi e/o listini prezzi di VENDITORE nonché privi di difetti di fabbricazione. La presente garanzia avrà la durata di 12 (dodici) mesi dalla data di ritiro dei Prodotti dallo stabilimento di VENDITORE, a prescindere dal termine di resa Incoterms® concordato.

7.2 Sono esclusi da qualsiasi garanzia:

a) le alterazioni cromatiche e le differenze di tonalità dei Prodotti;

b) i Prodotti classificati nel Contratto di Vendita come di qualità inferiore alla prima scelta ovvero come partite di Prodotti di fine serie venduta in blocco ovvero come partite speciali;

c) i Prodotti non posati a regola d'arte e/o posati in modo difforme rispetto alle previsioni delle norme di settore applicabili;

d) i Prodotti applicati su superfici e/o in ambienti diversi da quelli consigliati da VENDITORE;

e) i Prodotti utilizzati in modo difforme rispetto alle istruzioni e/o indicazioni di VENDITORE incluse nei cataloghi e/o i listini di VENDITORE ovvero in altro modo comunicate a CLIENTE da VENDITORE ivi incluse le indicazioni di cui al precedente paragrafo 2.2;

f) i Prodotti utilizzati in modo non conforme alla normale diligenza e/o alla tecnica richieste dalla natura dei Prodotti stessi;

g) l'ingelività del Prodotto, a meno che tale caratteristica del Prodotto non sia stata dichiarata da VENDITORE nel manuale tecnico, in riferimento al Prodotto in questione;

h) caratteristiche dei Prodotti come risultanti dalla classificazione del materiale ceramico (i) eseguita da parte di organismi di controllo e/o certificazione diversi da quelli di Paesi dell'Unione Europea e/o (ii) effettuata sulla base di criteri che non corrispondano a quelli utilizzati da VENDITORE.

7.3 Fermo quanto previsto al precedente paragrafo 4.4, CLIENTE sarà tenuto ad esaminare i Prodotti nel più breve tempo possibile e, a pena di decadenza dalla presente garanzia, a denunciare per iscritto a VENDITORE, a mezzo fax o email:

a) difformità relative alla tipologia e/o alla quantità dei Prodotti ricevuti nonché altre difformità palesi dei Prodotti o loro difetti palesi: entro e non oltre 8 (otto) giorni dalla consegna dei Prodotti e, comunque, prima della posa in opera dei Prodotti;

b) difformità occulte o difetti occulti dei Prodotti: entro e non oltre 8 (otto) giorni dalla scoperta e, comunque, entro il periodo di garanzia.

7.4 VENDITORE avrà il diritto di verificare i Prodotti, o alcuni campioni dei Prodotti, che CLIENTE ritenga essere difformi o difettosi, anche al fine di verificare il rispetto delle prescrizioni relative alla posa in opera degli stessi e/o all'applicazione e/o all'utilizzo dei Prodotti come rinvenibili dalle presenti CGV. A tale proposito, CLIENTE potrà restituire a VENDITORE i Prodotti dallo stesso ritenuti difformi o difettosi soltanto previa autorizzazione scritta di VENDITORE ed a condizione che CLIENTE si faccia integralmente carico delle spese e dei rischi di spedizione. L'autorizzazione al reso dei Prodotti o dei campioni assertivamente difformi o difettosi non costituirà in nessun caso riconoscimento delle difformità o dei difetti da parte di VENDITORE.

7.5 Nel caso in cui i Prodotti siano riconosciuti da VENDITORE come effettivamente difformi o difettosi, CLIENTE, a scelta di VENDITORE, avrà esclusivamente diritto:

a) alla sostituzione gratuita dei Prodotti difformi o difettosi; oppure

b) all'esenzione parziale o totale dal pagamento del loro prezzo, a seconda della gravità delle difformità o dei difetti.

7.6 Ai fini del paragrafo 7.5 lettera (a), i Prodotti che debbano essere consegnati in sostituzione di Prodotti difformi o difettosi saranno consegnati a CLIENTE in conformità alla regola Incoterms® 2010 ICC DDP – stabilimento di CLIENTE. I Prodotti che siano stati sostituiti dovranno essere, a scelta di VENDITORE, distrutti o smaltiti da CLIENTE, a spese di quest'ultimo, ovvero restituiti a VENDITORE, a spese di VENDITORE stesso. Per i Prodotti sostituiti che debbano essere distrutti o smaltiti da CLIENTE, CLIENTE si impegna ad inviare a VENDITORE la prova dell'avvenuta distruzione o smaltimento dei Prodotti, unitamente ai documenti giustificativi comprovanti il sostenimento dei costi di distruzione o smaltimento.

7.7 I diritti e rimedi descritti ai precedenti paragrafi 7.5 e 7.6 costituiscono i soli diritti e rimedi in garanzia concessi a CLIENTE. Nella massima misura consentita dalla legge, sono esclusi ulteriori responsabilità o obblighi di VENDITORE in relazione alla fornitura di Prodotti difformi o difettosi, ivi inclusi, a titolo esemplificativo e non esaustivo, responsabilità e obblighi per eventuali danni diretti, indiretti o consequenziali, perdite di profitto, ecc. a cui tale responsabilità si ricollega.

7.8 La presente garanzia sostituisce ed esclude ogni altra garanzia, espressa o implicita, prevista per legge o altrimenti.

### 8) Forza maggiore

8.1 VENDITORE non sarà in alcun modo responsabile per il mancato o ritardato adempimento di alcuna obbligazione relativa alla fornitura dei Prodotti qualora tale mancato o ritardato adempimento sia dovuto a eventi di forza maggiore come guerre, incendi, terremoti, inondazioni, tsunami, scioperi, difficoltà insorte con la forza lavoro, scarsità o difficoltà di approvvigionamento di materie prime, restrizioni all'uso di energia, sospensione o difficoltà nei trasporti, guasti agli impianti, atti della pubblica autorità o a qualsiasi altra azione o causa che non possa essere ragionevolmente prevista o alla quale VENDITORE non possa ragionevolmente porre rimedio tramite l'ordinaria diligenza.

8.2 In tali eventualità, il termine per l'esecuzione della fornitura verrà esteso per tutto il periodo di durata dell'evento di forza maggiore, fermo restando che, qualora tale evento dovesse impedire l'esecuzione della fornitura per oltre 6 (sei) mesi, CLIENTE avrà il diritto di risolvere il relativo contratto di vendita, mediante invio di lettera raccomandata con ricevuta di ritorno o corriere a VENDITORE, senza alcuna responsabilità o conseguenza per VENDITORE.

### 9) Invalidità di singole clausole contrattuali

L'invalidità di una disposizione delle presenti CGV non comprometterà la validità delle residue disposizioni che rimarranno pienamente valide e efficaci.

### 10) Riservatezza

10.1 CLIENTE si impegna a: (i) trattare come riservati tutte le informazioni/dati/disegni/know-how/documentazione trasmessigli da VENDITORE ovvero di cui sia venuto a conoscenza nell'esecuzione dei singoli Contratti di Vendita, indipendentemente dal fatto che tali informazioni siano o meno contrassegnate o identificate come riservate o confidenziali ("Informazioni "Riservate"); (ii) non divulgare e non comunicare a terzi, né in tutto né in parte, le Informazioni Riservate senza il preventivo consenso scritto di VENDITORE; (iii) limitare l'utilizzo di tali Informazioni Riservate ed il relativo accesso per scopi relativi all'esecuzione dei singoli Contratti di Vendita; (iv) adottare tutte le misure necessarie al fine di assicurare che i propri dipendenti e i propri collaboratori evitino di divulgare a terzi le Informazioni Riservate o le utilizzino in modo improprio. Le Informazioni Riservate non potranno essere riprodotte senza previo consenso scritto di VENDITORE, e tutte le copie delle stesse saranno immediatamente restituite dietro richiesta di VENDITORE.

10.2 Le previsioni di cui sopra non si applicano alle informazioni che: (i) sono pubbliche o divengono pubbliche non per divulgazione da parte del CLIENTE, dei suoi dipendenti o collaboratori, o (ii) erano in possesso del CLIENTE prima che le ricevesse da VENDITORE o (iii) sono state divulgate da fonti che non sono sottoposte alle restrizioni cui è sottoposto CLIENTE relativamente al loro utilizzo, o (iv) possono essere divulgate a terzi in base ad un'autorizzazione scritta di VENDITORE.

### 11) Legge applicabile - Risoluzione delle controversie

11.1 Le presenti CGV e tutti i Contratti di Vendita che le parti stipuleranno in base alle presenti CGV saranno regolati dalla Convenzione di Vienna del 1980 sulla vendita internazionale di merci e, nelle materie non coperte da tale Convenzione, dalla legge italiana.
